To keep up with your pace;
I've wandered more than half way up
The hill of life wi h you,
And now I fain would rest awhile, The shady past to view.

'Tis eight-and-twenty years ago I started on life's track; But you have ever horried so, I never could look back, Stop-but a moment, while I view The path I've traveled o'er-And let me bid one more adicu. To youth's far distant shore.

Stop, till I see that little cot, Where first I saw the light, That my wore heart has ne'er forgot Although it passed from sight. I long to see that cherished group, That clustered round the door, Upon the latticed, woodbine stoop,

With its white sanded floor. Etop, till my trembling arms embrace That dearest friend, MY MOTHER; And let me see my sister's face, And clasp the hand of brother ; Ob, let me kocel at father's feet, His blessing to receive ;

"Twill make my cup of joy complete, My truobled soul relieve. But, ah ! I see 'tis all in vain To ask this boon of thee : My soul must wander on to gain

Its choshen destiny. A long farewell to youth's sweet spring. That fled as mist away ; Yet still its shadows round me cling This twenty eight birth day.

About Bedrooms.

can Agriculturist :

If two persons are to occupy a bedroom during a night, let them step upon weigh ing scales as they retire, and then again in the morning, and they will find their actual weight is at least a pound less in the morning. Frequently there will be a loss of two or more pounds, and the average loss throughout the year will be more than one pound. That is, during the night there is a loss of a pound of matter, which has gone off from their bodies partly from their lungs, and partly through the pores of the skin. The escaped material is carbonic acid and decayed animal matter, or poisonous exhalations. This is diffused through the air in part, and in part absorbed by the bedelothes. If a single ounce of wool or cotton be burned in a room, it will so completely saturate the air with smoke that one can hardly breathe, though there can only be an ounce of foreign matter in the

Now the 16 opnces of smoke thus formed is far less poisonous than the 16 onnces | tion of exhalation from the lungs and bodies of two persons who have lost a pound in weight during the 8 hours of skerping, for while the dry smoke is mainly taken into the lungs, the damp edors from the body are absorbed both into the lungs and into the Kidneys, Skin or other organs.

I called at the house of a lady the other day who had a Wheeler & Wilson which she said refused to do her bidding. It would skip stitches, and her brush pad seemed worn and unfit for its work. I found she was oiling her machine with Kerosene, or coat oil, having, as she thought, Blackberries, Raspherries, Strawberries Currants no other fit for use. I advised her to try sweet oil, when lo ! Miss Wheeler & Wilson recovered at once from her fit of dervous irritability, and went off on a shirt bosom to perfection. At one time I found a machine running so heavily that the lady son recovered at once from her fit or permachine running so heavily that the lady had given it up, saying that she could not stand it to turn it. I asked what oil she was using; she said sperm. I ex amined her can and found it a mixture of asced and probably laid oil. I advised a gelittle coal oil, which at once cut through the sticky gum, and away it went like a buzz. When throughly cleaned and lubriested with pure sweet oil, all was right. Don't say "I can't do a thing with it," till you have thoroughly tested the oils.

F. D G. A Wheeler & Wilson has been run for years in our domicile, with nothing but common Lard Oil. There is no objection to pure Sweet Oil, but in our opinion Lard Oil is more likely to be pure, and when so, is go. d enough.

tiuring the year 1854, I was so unfortunate as to be thrown from my sunky against a rock near the roadelde, from which my bend received a most terrible blow; causing a great deal of irritation, which communicated to the bride road external surface of the head, from the effects of which my hair was finally destroyed over the entire surface of this head. From the time of its total disappearance, I employed everything I could think of, being a professional man myself and, as I thought, understanding the nature of the disease, but was finally defeated in every prescription advanced.

These and other circumstances induced me to resort to your worthy Hair Restorative, which I have every reven to believe, produced a very happy result; two months after the first application, I had as beautiful a head of young hair as I ever saw, for which I certainly owe you my most sincare thanks. I have cured many inveterable cases of Leucyrthesa by it, and some where the complaint was caused by necrolion of the nerse. The theoretically itself was soon enred. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala, writes, "A dangerous energen timeor on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought usfaing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last recort before cutting, and it proved effectual. After faking your remedy eight weeks no symptom of the disease remains."

Syphills and Mercurial Disease.

Syphilis and Mercurral Disease.

New Orleans, 26th August, 1859.

Dr. J. C. Arm: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have curred with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the care of Veneral and Alexcurial Disease. One of my patients had Syphilitic ulcers in his threat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his bose, and the ulceration had enten away a considerable part of it, so that I believe the disorder would scen reach his brain and hill him. But it yielded to my administration of your Sarsaparilla: the ulcers healed, and he is well again, not of course without some distillation of your Sarsaparilla: the ulcers healed, and he is well again, not of course without some distillation to his face. A woman who had been treated for the same disorder by reoccury was miffering from this paison in her bones. They had become so sensitive to the weather that on a damp day she suffered excruciating pain in her befores. They had become so sensitive to the weather that on a damp day she suffered excruciating pain in her joints and home. Else, to, was carred entirely by your Sarsaparilla in a few weeks. I know from its formula which your agent gave me, that this Preparation from your bloom ory must be a great remely; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, G. V. LARIMER, M. D. Syphills and Mercurial Disease.

Rheumatism, Gout, Liver Complaint.

Independent, Presing Co., Va., 6th July, 1859.

Dr. J. C. Aver: Sir, I have been afflicted with a pollified of the still of physicians, and suck to me in spite of all the skill of physicians, and suck to me in spite of all the skill of physicians, and suck to me in spite of all the remedies! could flud, until I tried your Sarauparlita. One bottle cured mis in two weeks, and restored my general health so much line! I am for better than before! was attacked. I think if a wonderful medicine. J. FREAM.

Jules V. Getchell, of St. Louis, writes: "I have been efficied for years with an effection of the Liver, which destroyed my health. I triol every thing, and every thing failed to relieve ne; and I have been a broken-down man for some years from no other cause than derappearated the Liver. My beloved pastor, the flex. Mr. Essy, advised me to try your Sarauparlila, because he said he knew you, and any thing you made was worth trying. By the blessing of God it has cured me, and has so purified my blood as to make a new man of me. I feel young again. The best that can be said of you is not half good enough."

Schirrus, Cancer Tumors, Enlargement, Rheumatism, Gont, Liver Complaint.

A great variety of cases have been reported to us where cures of these formulable complaints have resulted from the use of this remedy, but our space here will not admit them. Some of them may be found in our American Almanac, which the agents helow manned are pleased to furnish gratis to all who call for them,

Dyspepsia, Heart Disease, Fits, Epilepsy, Relancholy, Neuralgia

Many remarkable curve of these affections have been made by the alternitie power of this medicine. It stimulates the vital functions into vigorous action, sed thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the mecessities of the people, and we are confident that this will do for them all that medicine can do.

of the Disease.

This is a remedy so universally known to surpass any either for the cure of threat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivailed excellence for coughs and colds, and its triby wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth, Few are the communities, or even families, among them who have not some personal experience of its effects—some living trophy in their mods of its victory over the subtle and dangerous disorders of the threat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the victoes that it did have when making the curse which have wen as strongly upon the confidence of markind.
